

# Freakin Me Out

Rayland Baxter

I used to be a good man  
I used to have friends  
They would find me in the evening and mess with my head  
When I wake up in the morning and no one's around  
Just me in the darkness, flying around I'm losing my mind  
And it's freakin me out  
Freakin me out So I turned into a bad man  
I ran out the door  
Made a friend with a rooster and a friend with a poet  
And they made me believe that I was holding the crown  
But it was me in the darkness, flying around I'm losing mind  
And it's freakin me out  
Yeah, I'm losing my mind  
Yeah, you know, it's freaking me out  
Yeah, it's freakin me out I've heard it all before  
A beggar's at the door of my heart  
Yeah, there's a reason I fly around  
Nobody showed me how, to love Used to have a good heart  
I used to be kind  
I'd be there for my brothers, it was a mission of mine  
But as soon as I see there's no one around, yeah  
Just me in the darkness, flying around I'm losing mind  
And it's freakin me out  
Yeah, I'm losing my mind (x2)  
And you know, it's freakin me out  
Yeah, it's freakin me out
