

Twice If You're Lucky

Crowded House

Breathe it out, I can hear you now
You think reality's shut you down
And you're locked away where you can't get out
Spent awhile on your back But you know what it means to me, babe
In the course of a history, hey
It all makes sense to me somehow And it's not what it used to be, no
We're suddenly free to let go
Look what's happening now You will love this one
You will love this one
'Cause if we create
Something magical, honey There are times that come
These are times that come
Only once in your life
Or twice like mine Do you wish to love? Can you give enough?
Use your saving graces
In the heavy light, till the sky falls down
He can pray all he likes But you know what it means to me, babe
In the course of a history, hey
It all makes sense to me somehow It's a course in philosophy, yeah
What is life is it just a dream, no
A perfect mystery but somehow I know You will love this one
You will love this one
'Cause if we create
Something magical, honey There are times that come
These are times that come
Only once in your life
Or twice if you're lucky If the chance it comes around
Another time
You risk it all, you take the fall
For what you like And sure enough before your love
Has taken flight
You make the revelation You will love this one
Love this one You will love this one
You will love this one
Dream in my head
Something magical, honey There are times that come
These are times that come
Only once in your life
Or twice if you're lucky
