

I'll House You (feat. Jungle Brothers)

Don Diablo

House you, I'll house you
House you, I'll house you
House you, I'll house you
House you, I'll house you
House you, I'll house you
House you, I'll house you
House you, I'll house you
House you, I'll house you

Girl I'll house you
Girl I'll house you
Girl I'll house you
Girl I'll house you
Girl I'll house you
Girl I'll house you
Girl I'll house you
Girl I'll house you
Girl I'll house you
Girl I'll house you

House you, I'll house you.
House music all night long
House music

jump jump a little higher
jump jump until you get tired
jump jump a little higher
jump jump until you get tired
jump jump a little higher
jump jump until you get tired
jump jump a little higher
jump jump until you get tired
jump jump jump

House your body to the bass
House it all over the place
Don't let nobody in your way
Tonight's your night, today's your day
House your body to the bass
House it all over the place
Don't let nobody in your way
Tonight's your night, today's your day
House music all night long

When you're in my hut
I'll house you
I'll house you
When you're in my hut
I'll house you
I'll house you.
You in my hut now
House music
House you, I'll house you.
jump jump jump
House you, I'll house you.
