Make Like Mine

Karmacoda

All the time I only want to see you
No need to make a Mogadishu
Oh you're too good oh you're too fine you make like mineImportune, importance break it through we'll make a dent
Yeah, we'll make a dent
Dent, dent, dentCop my call I only want to speak through
No need to make yourself so see through
Ah it's not good it makes no sense why make this fenceYour fortune unfortunate, broke it new
Now pay your rent, oh pay your rent
Rent, rent, rentYou're mine you make like mine
So good like mine, mine
You're mine you make like mine
So good, so good like mine.
All the time I only want to see you
No need to make a Mogadishu
Too good, too nice you taste like mine
Cop my call I only want to speak through
No need to make yourself so see through
It's no good, no sense why make this fence
Oh you make like mine, mineYou're mine you make like mine
So good like mine, mine
You're mine you make like mine
So good, so good like mine.
You're mine you make like mine
So good like mine, mine
You're mine you make like mine
So good, so good like mine.Mine, like mine, oh, you make like mine
Make like mine, ah
