Found Forever

Warrant

I see it out on the horizon
The clouds are clear into my vision today.
You were a light among the shadows
I felt you heat from a mile away.
Over and over I hear the voice in my head
telling me and its getting better
Chorus:
I want you near want you now
...forever
And you finish me wait and see
we have found forever.
I know both might have stumbled
The bastards gone just a blink of your eyes

We can move a little closer our words they've been such a perfect surprise
Over and over you whispering in my ear
don?t you ever let me go.
Chorus:
I want you near want you now
...forever
And you finish me wait and see
we have found forever.
I know that sure as the sun comes and rise
Know the way that I looked in your eyes.
I see it out on the horizon
the clouds are clear into my vision.
[2 x Chorus:]Want you now ohhh
