

# A Way to Kill Old People

[Ed Gein](#)

How could you be content  
To drift through life never questioning  
Sticking your head in the sand  
Whenever you see something you dont like  
If you cant see it then its not there right  
Age wont make me apathetic  
Old ways for old people, new ways for new  
This is our way to kill old people  
Age wont break me
