

She's Everywhere

John Farnham

In my sleep
I heard her voice so clearly
Whispering my name
I thought that she was here
Walked the streets
Trying to leave her ghost behind me
I saw her face, in everything - so clear
In the city streets around me
In the things I left behind me
In the sky that does surround me
Everywhere, she's all around me
She's all around me
Forget your dreams
Forget the very nature of your dreams
Has gone away
She's living with the straights of yesterday
Forget yourself
Forget the very essence of yourself
Has gone away
Though remember this -
She'll never see you through
Waiting for someone to take me to
Somewhere I won't leave behind me
Somewhere I won't leave behind me to
In my life
I've lost what I held dearly
Thrown it all away
And there's nothing takes her place
I pace the bars
Trying to fill the hole inside me
She tore away
And there's nothing in her place
In the city's filth around me
In the things I left behind me
In the sky that does surround me
Everywhere, she's all around me
She's all around me
Forget your dreams
Forget the very nature of your dreams

Has gone away
She's living in the blood of yesterday
Forget yourself
Forget the very essence of yourself
Has gone away
Remember this -
She'll never see you through
Waiting for some voice to take me to
Somewhere I won't leave behind me
Somewhere I won't leave behind me to
Somewhere I won't leave behind me to
Everywhere she's all around me
Everywhere she's all around me
Everywhere she's all around me
Everywhere she's all around me
Forget your dreams
Forget the very essence of your dreams
Has gone away
But remember this -
She'll never see you through
She'll never, she'll never see you through....
