

# Get Your Groove On

## Wildhearts

[Ginger]There will be evil that tries to disable

They fight, take, start wars

Try to make you take the poison

Try to get some kind of reaction

You don't need this situation

Ignore the irritationGet your groove oneSome will annoy you

And bore you as they do

Just stop, think, calm, walk

Rise above this aggravation

Do not give in to temptation

You don't need this situation

Ignore the irritation
