

# Warm Healer

## Everything Everything

We got ourselves another one  
We got ourselves another Jane Doe  
(Doe)I never let the others go  
But every time I look around they formSee the shadow-men bow down to the head of a baby calf  
(Calf)  
If it isn't love then why do I feel that I'm split in half  
(Half, half, half)Babe, don't look the other way  
I love your face and there's no more time  
Babe, I saw what you did tonight  
It's ugly but it is all I want  
Babe, they call me the medicine man  
But my old spells don't work anymore  
Don't ask for me tomorrow, kid  
I think you'll only find a grave man  
(Man)Just take a look outside the walls  
And try to tell me something that's good  
NowBy my neck I feel some great weight  
The Chupacabra clings on  
(On)That's the rhythm my Pigdog loves  
It's gotta mean something's wrong  
(Wrong, wrong, wrong)Babe, don't look the other way  
I love your face and there's no more time  
Babe, I saw what you did tonight  
It's ugly but it is all I want  
Babe, they call me the medicine man  
But my old spells don't work anymore  
...Babe, I saw what you did tonight  
It's ugly but it is all I want  
Babe, you don't want me sucking you down  
What's all that young life been wasted on?
