

The New Heal

Far From Alaska

Here's where I stand, so don't say a word
Sunset is not the same 'cause my eyes are closed
Is not that I'm all loose, I just wanna feel
Feel the dawn in peace so my brain can heal
Here's where I stand, so don't say a word
The pain is consuming me 'cause my heart is hurt
Go find some new air now, I'm begging to breathe
Breathe for something more so my lungs can speak
Just grab my hand until it's calm again
Until the pain I feel has gone away
Not thinking, not feeling, it's a new heal
Here's where I stand, so don't say a word
Sunset is not the same 'cause my eyes are closed
Is not that I'm all loose, I just wanna feel
Feel the dawn in peace so my brain can heal
Here's where I stand, so don't say a word
The pain is consuming me 'cause my heart is hurt
Go find some new air now, I'm begging to breathe
Breathe for something more so my lungs can speak
Just grab my hand until it's calm again
Until the pain I feel has gone away
Not thinking, not feeling, it's a new heal
