Gift

Elisa

In the other room
I'm the other girl
Just another one
Of your children
It's this other face
This other name
I'm the other girlWant to be in the other room
When you're calling me
When you're calling meYour gift
Receiving through this body of mine
... alive... (receiving)
Your gift
Growing into this body of mine
... alive... (receiving)I am bleeding joy
Still... still peaceful
I am waiting for patience
I live something beautiful
Thinking not too fast
I'm still here
Still hereOh yeah, want to be in the other room
When you're calling me
When you're calling meYour gift
Receiving through this body of mine
... is alive... (receiving)
Your gift
It is growing into this body of mine
... is alive... so aliveMy secrets are now things that I can touch
It must complicity
Now I'm going to embrace
This man without face oh, you just flyYour gift
Receiving through this body of mine
... alive... (receiving)
Your gift
It is growing into this body of mine
... is alive... (receiving)(gift) (gift)This is love...
