DOPEMAN

Huey

Dopeman's got another big plan
To sell it to you or anyone he can
Because this is much better than minimum wage
And no matter how things they can
Because dopeman's reasons will always stay the same
And for some people it's the only way to stay sane

Think about it for a minute more
It's a life of crime or hanging round the liquor store
Or a quick drug fix just to get you through
When the city comes down what would you do
Take a welfare state
Or a dopeman's fate
And keep the cycle spinning around
