

# Diamond In My Crown

[Patty Loveless](#)

As each long day rolls by and falls behind me  
In the lonely night there's a peacefulness I've found  
Though I'm weary even then when I rise to start again  
There'll be a diamond, a diamond in my crown I have wasted all that life has laid before me  
I have watched as all the green fields turn to brown  
But I shall not disavow all these ties that bind me now  
There'll be a diamond, a diamond in my crown Shinning down someday I know brighter than all their streets of  
gold  
When the burdens that I carry I will lay down  
And the sorrows I have known I'll see them all be overthrown  
There'll be a diamond, a diamond in my crown Then the closer I will be to my sweetest victory  
There'll be a diamond, a diamond in my crown
