

The In Set

Smash Mouth

Well I go where they go and I know
Who I wanna know, we are the "In Set"
And they don't trip if you're hip
At the velvet rope off the strip we are the "In Set"
Call me cruel and unkind but I'm cool and refined like a robot
If you're not down with us you're down below
Where have you been? Who do you know?
It's not a secret this is our big show
And we will never let you down, never, ever, ever
Well the pond may be big but it ain't deep if you dig on the
inset
Little fish swim away I suggest you go and play on the swing set
And I was a junkie way before it was cool
With that I'll leave you
If you're not down with us you're down below
Where have you been? Who do you know?
It's not a secret this is our big show
And we will never let you down never, ever, ever
We're just drivin' this jalopy till it grinds you a halt
And that's our mission, a Hollywood tradition
If you're not down with us you're down below
Where have you been? Who do you know?
It's not a secret this is our big show
If you're not down with us you're down below
Where have you been? Who do you know?
It's not a secret this is our big show
And we will never let you down never, ever, ever
