Let's Spend The Night Together

David Hasselhoff

I know what you're thinking
I feel it too
What we do about it
That's up to you
D'you wanna stay ?
Or sneak away and leave the party
I can read the message
Deep in your eyes
There's a body language
We can't disguise
Just say o.k.
We can sneak awayLet's spend the night together - baby
Don't fight our chemistry
D'you wanna make love
D'you wanna make love with me tonight
Let's spend the night together - baby
Don't fight what has to be
I wanna make love
I wanna make love with you tonightDancing close together
Feels good to me
What we've got in our minds
Needs privacy
D'you wanna stay ?
Or sneak away and leave the party
No one's gonna miss us
Come on let's go
There's too many people
So who will know ?
Just say o.k.
We can sneak awayLet's spend the night together - baby
Don't fight our chemistry
D'you wanna make love
D'you wanna make love with me tonight
Let's spend the night together - baby
Don't fight what has to be
I wanna make love
I wanna make love with you tonightLet's spend the night together - baby
Don't fight our chemistry
D'you wanna make love

D'you wanna make love with me tonight
Let's spend the night together - baby
Don't fight what has to be
I wanna make love
I wanna make love with you tonightLet's spend the night together - baby
Don't fight our chemistry
D'you wanna make love
D'you wanna make love with me tonight
Let's spend the night together - baby
Don't fight what has to be
I wanna make love
I wanna make love with you tonight
