

Bullshit Detector

New Mexican Disaster Squad

Seal the fate of countless people
Because they slurp every drop
Regards to the human slide show
We can watch as the bodies drop I hate when I can't get control
I hate when I can't get control
I see them bought and I see them sold
I hate when I can't get control Instinctive, keen to sound
All aware, all around
It's stronger, it sees through lies
It knows when, it knows why Seal the fate of countless people
Because they slurp every drop
Regards to the human shield now
We can watch as the bodies drop I hate when you have the control
