

Btsk

Ms Mr

It doesn't make us strong
It doesn't make us weak
Tongue tied disservice
Like shy pre-teens
i could only breathe
Like to believe
I'm aloneIt didn't come easy
I'm glad i was hard
Worth the wait
To give you my heartBig teeth small kiss
I turn to wax and melt like this
Melt like thisI found you in pieces
You'd been torn apart
A million one reasons to end before you start
But deep down I knew
No matter what in the end
It'd be me and youBig teeth small kiss
I turn to wax and melt like this
Melt like this
Lavender haze
Djarum vanilla
Turkish jade
You and me
We have it made
We have it madeCaress my knees with your tongue
Teeth on my waist I come undone
It's those hours in the night
Just before light
Run your hand down my spine
We kiss the dusk goodnight
GoodnightBig teeth small kiss
I turn to wax and melt like this
Melt like this
Lavender haze
Djarum vanilla
Turkish jade
You and me
We have it made
We have it made
