

Waste My Time (Instant Star. ft. Shay)

Alexz Johnson

Friends are telling me I lost my mind
When I hooked up with you
Maybe that's true
They say that I'll wake up one day
Asking what did I do?
Maybe that's true too When I'm with you every thing's alright
All I know is how I feel
When you're with me Waste my time
Waste my time
Not so sure that I'll be yours
And baby you could be mine
It's all about hanging out
'Cause you know how to waste my time Nothing like an empty day
With nowhere to be
You're right there with me
Laughing as the world goes by
How we let it bay
Moving way to fast Cause when I'm with you
I don't really care
What they all want me to be
I just want you beside me Waste my time
Waste my time
Not so sure that I'll be yours
And baby you could be mine
It's all about hanging out
Cause you know how to waste my time Call me Shay on the M-I-see
When you listening to me
You be listening to beat bumping
To the rhythm
That we give em
Where we hit em
With the beats on the streets
Don't forget the way we living, yo
(Waste my time) Cute girl on the other side of the wall
(Waste my time) I like the way you move your body and if you fall
(Not so sure that I'll be yours) I'll be the one that's gonna catch before you hit the ground
(Baby you could be mine) I'm feeling your sound It's all about (yeah girl it's all about)
Hanging out (you know we hanging out)
Cause you know how to waste my time Waste my time (wasting my time)

Waste my time (yeah yeah)
Not so sure that I'll be yours
But baby you could be mine (you could be mine)
It's all about (yeah girl it's all about)
Hanging out (we hanging out)
Cause you know how to waste my time (wasting my time)
You know how to waste my time
