Together

The Box Tops

Well, you should see me walkin' with my girlfriend
Oh you would swear we both were one and its somethin' else, too
Walk so close, can't tell where one ends, the other begins
So much love, just ain't no way to tellYou could see we make it together
You could see the love look in our eyes
You could see we make it together, foreverYou should love someone the way that I do
Don't you know that your whole life's a stage?
Tryin' to find somebody, gonna love you
Love you like mine, if only for your own sakeYou could see we make it together
You could see the love look in our eyes
You could see we make it together, foreverYou could see a long-time love in action
We're livin' and were lovin' our lives away, yeahOh you could see we make it together
You could see the love look in our eyes
You could see we make it together, forever
