

Streets Of LBC

Warren G

[gun shot][Chorus]
I saw ppl dancing in the streets
Streets of a lonely city
Listen to the beats
The people strike their feet on the lonley concrete streets of..
streets of a lonely city[Warren G]
Some niggaz quick to get it confused
This is where its cracking at (wassup ?)
Big city of music
We're only half of that
What happens after midnight
Goes up spoke of
Cos broke niggaz where im at they dont show no love
I done witness the concrete jungle in
Watch the niggaz turn soft and leave humble-in
Since i been young i hung out, hard knock
Played my hand when they delt my cards
Now check it out whats real is whats happening
Now this is where i deal with and where i live at
Not to many of us make (make it) it to see the day we able to make a statment (statment)
The ways of the world has gone crazy
Two things never change, thats the music and what the rules of the game is
Now everybody knows ur name
It aint no other place to turn
But i better get a hold on this street shit i learnt it (learnt it)I saw ppl dancing in the streets
Streets of a lonely city
Listen to the beats
The people strike their feet on the lonley concrete streets
streets of a lonely city
