

Speak

Jimmy Needham

We mostly keep to ourself round here
No sense rocking the boat round here
We watch you dance into hell round here

It's time we speak his mind round here
Ooh so open your mouth
Open it wide
Quit singing songs for a minute..tonight

You can love with your hands
You can love with your deeds yeah
How will they know if you don't even speak Yea Yeah

We are they social workers
And we will put springs on your car
We'll make you ride so smooth ..yes we will
That you'll forget where you are
Don't forget where you are

So open your mouth
Open it wide
Quit singing songs for a minute tonight
You can love with your hands
You can love with your deeds
How will they know if we don't even speak, yes

'Cause I'm getting sick, Yea
And I'm Getting tired
Of not even hearing us preach to the choir

So open your mouth
Open it wide
Quit singing songs for a minute tonight
You can love with your hands
you can love with your deeds
But how will they know if we wont even speak

Open your mouth
Open it wide, Yeah

Quit singing songs for a minute tonight

You can love with your hands
you can love with your deeds
How will they know if we don't even, wont even speak?
