

# Open Up the Red Box

## Simply Red

Why don't you look at the price I'm paying?  
Walk in, take a look inside  
I've moved back the tables and chairs to the wall  
The valuable things I've had to hide Open up the red box  
Come on, open it up  
Open up the red box  
Come on, open it up Peer in, looking for that crasher again  
You ruined Terry's party last night  
An overweight greasy little man with a mouth  
That opens more than now and again Open up the red box  
Come on, open it up  
Open up the red box  
Come on, open it up Something good must have happened to you  
If you would let it happen to you  
If you could let it happen to you  
Something good would have happened Lopez, I hate you for the state you're in  
Lopez, your hair, it washes out, it washes in  
You mopey little fat boy, Lopez  
Come on get lost Open up the red box  
Come on, open it up  
Open up the red box  
Come on, open it up Something good must have happened to you  
If you would let it happen to you  
If you could let it happen to you  
Something good would have happened Something good must have happened to you  
If you would let it happen to you  
If you could let it happen to you  
Something good would have happened I'm out of my head  
I'm out of my head  
I'm out of my head  
I'm out of my head  
I'm out of my head
