

Look At Me

Keri Noble

Look at me, look into my eyes
Tell me do you see
That I am always by your side?
Or has the world got you down
On your knees? Come to me
Look at you, look into your heart
Tell me is there room for you
To make a brand new start?
Or has the world gotten to you
And made you dark? Come to me
Cause' when you cry
All your tears I will wipe away when you laugh
Who do you think got you that way?
When you dream, babe and you wake up
Is it me you wanna see? Cause' when you cry
All your tears I will wipe away when you laugh
Who do you think got you that way?
When you dream, babe and you wake up
Is it me you wanna see? Look at us, look around the world
'Cause all you seem to find
Are unhappy boys, unhappy girls, babe
Now tell me is that what you want for you and me?
Don't you want to be happy? Cause' when you cry
All your tears I will wipe away when you laugh
Who do you think got you that way?
When you dream, babe and you wake up
Is it me you wanna see? Look at me, look into my eyes tell me do you see
That I am always by your side?
Or has the world got you down on your knees?
You can come to me
You know you can always come to me
