

# Don't Stop The Music

## Play

This little girl didn't care what anybody said  
She got the whole world dancing to the music in her head  
They loved to trash her bad, laugh at her and call her names  
And now they all try to copy her, isn't that a shame  
It only made her stronger Don't stop, stop the music  
The world will keep turning if you use it, get out there and  
Don't stop, stop the music  
People keep on dancing, you can do it  
Baby come on  
Baby come on He knew that he was different  
This sucker couldn't win  
They didn't dig his vision  
They tried to fit him in  
But there's no room for losers  
Until they make you change  
And then you love them  
Tell me how much longer Don't stop, stop the music  
The world will keep turning if you use it, get out there and  
Don't stop, stop the music  
People keep on dancing, you can do it  
Baby come on  
Baby come on You've got a perfect mind, you've got a perfect smile  
You're unlike anybody, got your own shine, come on  
If you just keep on dancing, then you won't feel no pain  
Baby it's your decision, only you can break a chain Don't stop, stop the music  
The world will keep turning if you use it, get out there and  
Don't stop, stop the music  
People keep on dancing, you can do it  
Baby come on  
Baby come on People keep dancing, you can do it  
Baby come on
