## The Body Electric

## Rush

One humanoid escapee

One android on the run

Seeking freedom beneath a lonely desert sunTrying to change its program

Trying to change the mode, crack the code

Images conflicting into data overload 1 0 0 1 0 0 1

SOS

1001001

In distress

1 0 0 1 0 0 Memory banks unloading

Bytes break into bits

Unit one's in trouble and it's scared out of its witsGuidance systems break down

A struggle to exist, to resist

A pulse of dying power in a clenching plastic fist1 0 0 1 0 0 1

SOS

1001001

In distress

1 0 0 1 0 0Replays each of the days

A hundred years of routines

Bows its head and prays

To the mother of all machines, all machines 1 0 0 1 0 0 1

SOS

1001001

In distress

1 0 0 1 0 0It replays each of the days

A hundred years of routines

Bows its head and prays

To the mother of all machines, mother of all machines
