

Puzzle Of My Heart

Westlife

It's the way she fills my senses
It's the perfume that she wears
I feel I'm losing my defences
To the colour of her hair And every little
Piece of her is right
Just thinking about her
Takes me through the night Every time we meet the picture is complete
Every time we touch, the feeling is too much
She's all I ever need to fall in love again
I knew it from the very start
Oh, she's the puzzle of my heart It's the way she's always smiling
That makes me think she never cries
(She never cries)
I feel like I'm losing my defences, yeah
To the colour of her eyes And every little
Piece of her is right Every time we meet the picture is complete
Every time we touch, the feeling is too much
She's all I ever need to fall in love again
I knew it from the very start
Oh, she's the puzzle of my heart Like a miracle she's meant to be
She became the light inside of me
And I can feel her like a memory
From long ago Every time we meet, the picture is complete
Every time we touch, the feeling is too much
Every time we meet, the picture is complete
Every time we touch, the feeling is too much She's all I ever need to fall in love again
I knew it from the very start
Oh, she's the puzzle of my heart
