

# Forget About It

Melissa O'neil

Selective memory conveniently drops by  
when youre up in the club and some girls caught your eye  
what you dont think i hear rumors?  
My friends dont have eyes?  
I know your minds like a computer  
but you turn it off sometimes  
I wonder what youre doing to me  
what youre doing boy  
I remember  
Chorus: Dont play dumb  
cause i know what youre thinking  
Forget about it  
Back it up  
cause you know that i  
wont forgive you wont forget the  
damage done

and i wont take you back  
Forget about it  
You remember science books  
the French you took last year  
Every single sports statistic but you still dont get it dear  
I wonder are you really with me?  
Are you really boy?  
Just remember  
Chorus  
Boy i know this one thing  
You aint forgetting nothing  
Chorus (repeat same as above)  
Dont you forget about it  
Forget about it!
