

A Little More Jesus

Chris August

[Verse]

It was just last Sunday
I was sitting in the pew
The preacher told some stories
Yeah he spoke about the truth
Something resonated
I heard a million times before
Somehow I needed to hear it once more, he said[Chorus]

I could use a little more Jesus
And a little bit less of me
I could be a little more humble
If we're speaking honestly
The more I see this heart inside of me
The more that I believe
I could use a little more Jesus
And a little bit less of me[Verse]

I try to love my neighbor
And love my enemy
I went down to the homeless shelter and I
Gave them food to eat
It made me feel so good inside
But it did not bring me peace
Turns out there's just one thing that I need[Chorus]

I could use a little more Jesus
And a little bit less of me
I could be a little more humble
If we're speaking honestly
The more I see this heart inside of me
The more that I believe

I could use a little more Jesus
And a little bit less of me[Bridge]

We've got rules and regulations
Got a stance on everything
We get so complicated
When all we really need[Chorus]

Is just a little more Jesus
And a little bit less of me
I could be a little more humble
If we're speaking honestly

The more I see this heart inside of me
The more that I believe
That I could use a little more Jesus
And a little bit less of me[Chorus]
I could use a little more Jesus
And a little bit less of me
I could be a little more humble
If we're speaking honestly
The more I see this heart inside of me
The more that I believe
I could use a little more Jesus
And a little bit less of me[Outro]
I could use a little more Jesus 3x
And a little bit less of me
I could use a little more Jesus 3x
And a little bit less of me
A little bit less of me
