

Material World Paranoia

Kreator

Dehumanization through industrialization
Bring fear to the masses of reincarnation
Manic frustration deterioration
Nature fights back for its own preservationConcrete coffin breeds lunacy
Cold steel skeleton
Desperation in the factory
Crank out oblivionMaterial world paranoia
Corporations dominate earth
Material world paranoia
Enslavery begins at birthPower's illusion brings global confusion
A forgone conclusion of mind's evolution
Nature's destruction through massive production
A blatant example of mindless constructionConcrete coffin breeds lunacy
Cold steel skeleton
Desperation in the factory
Crank out oblivionMaterial world paranoia
Corporations dominate earth
Material world paranoia
Enslavery begins at birthDon't dream about how life can be, experience your dreams
Before this prefab culture wastes your life
Stay on the straight and narrow course, material wealth is yours
But the promise of a better future is a lie
The promise of a better future is nothing but a lieThe promise of a better future is a lie
The promise of a better future is a lie
The promise of a better future is nothing but a lie
