

# I Can Help the Next in Line

## They Might Be Giants

I can help the next in line  
Have you been with us before?  
I can help the next in line  
I don't think I like your tone I am going to have to ask you now to take a walk with me  
Put your hands where I can see them I will need to see IDI can help the next in line  
Do we have a problem here?  
I can help the next in line  
If you would walk this way we'll settle this now  
Have you been with us in the past?  
I can help the next one in line  
I don't think that I like your tone  
I can help the next one in line
