

# Following the Sun All Day (with The Jordanaires)

Hank Snow

(Keep a movin', keep a movin')  
We've been followin' the sun  
Ever since the day began  
And we're weary.  
(Keep a movin' keep a movin')  
Till the fading western light  
Brings the shelter of the night  
So dreary. Followin' the sun all day  
Move those mountains from our way  
Wheels are turnin'  
Hearts are yearnin'  
Followin' the sun all day all day  
We don't know where we'll land  
It may be just around the bend  
The troubles hiding (Keep a movin', keep a movin')  
But the sun is in the lead  
And that's all we'll ever need  
For guiding  
Followin' the sun all day Everyday and everywhere  
There's been something in the air  
Growing stranger  
(Keep a movin', keep a movin')  
But we haven't heard a sound  
And the silence all around  
Warns there's danger  
Followin' the sun all day
