Under The Influence

Example

And I love being under the influence,
Under the influence of you.
And your voice sounds like it's an instrument,
Everything you say rings true.

Play times over, play times over.
And I love being under the influence, but there's better things you'll have me do.
Play times over, play times over.
And I love being under the influence,
Under the influence of you, you, you, you, you, you, you, you.
