

# Bleeding the Orchid

## The Smashing Pumpkins

If life is my witness  
Love is my song  
If nothing means no one  
Then blank, I'm alone  
If fear conquers easy  
I could lead on  
Milk from the flower  
Blood from the dawn  
So here we are upon your stage  
The laughs we shared  
The dreams we saved  
Bleeding the orchid  
We're bleeding the orchid  
We're bleeding the orchid  
Blessed my weakness  
Blessed my wrongs  
As hate forms a sequence  
Of one by one  
As freedom's not easy  
We suffrage the wants  
There's clouds in my shower

Ghosts in my home  
Youth is where you are  
They've turned sinner's child  
We're bleeding the orchid  
We're bleeding the orchid  
Bleeding the orchid  
Gilded art this silent march  
Past triumph through alarm  
So thus charged, does this will stand for march?  
The heart's untouched, the heart's unloved  
Bleeding the orchid  
Bleeding the orchid  
Here we are upon your stage  
The love we share  
The dreams we'll save  
We're bleeding the orchid  
We're bleeding the orchid

We're bleeding the orchid, yeah  
Bleeding the orchid
