

Seven Days Without You Polka

Polka Music Songs

Seven days and seven nights without you
make a week of loneliness for me
How I tried to get along without you
But it seems that you were meant for me

I like the way you dance with me my darling
I like the way you hold me in your arms
I just can't forget your tender kisses
I just can't forget your lovely charms

Seven days and seven nights without you
Oh my darling how I miss you so
Please come back and let us start all over
For when you do, I'll never let you go
