

# Whole Lotta Crazy

## Turk Tresize

Well I ain't no, well I ain't no-one  
To the saying, that you had your run  
Stay away from them fools  
They'll only waste your time  
Yeh stay away from them fools  
They'll steal your rhythm and rhyme

Don't complicate it, try hard to over-rate it  
Said, it's been a whole, whole lotta crazy  
It's been a whole, whole lotta crazy

Don't ever doubt it, don't ever change your mind  
If you want it, some freedom of mind  
Yeh, it's all coming down, get your head out the clouds  
Yeh, it's all coming down, don't swallow the crown

Don't complicate it, try hard to over-rate it  
Said, it's been a whole, whole lotta crazy  
It's been a whole, whole lotta crazy

(Guitar Solo)

It's been a whole, whole lotta crazy  
It's been a whole, whole lotta crazy  
It's been a whole, whole lotta crazy  
It's been a whole, whole lotta crazy  
It's been a whole, it's been a whole
