Finish Line

Tionne

Verse 1:

Here's the news,
I'll be hanging up my track shoes
Won't be doing laps for you
'Cause you proved that you come first
You're number one and
This time I'm losing you

Now you're full speed ahead
And now I shouldn't have said
A lot of things that I said, I regret it
Since you wanna be gone
I'll be laying in bed until you understand
Hope you get it

Chorus:

I won't be running after you
And I won't chase you down the street,
I won't be calling out your name this time
It's gotta be hard to believe
That I'm not running after you
I won't be losing any sleep
I won't tell you to slow your roll this time
'cause now I'm at the finish line
Finish line, I'm at my finish line, finish line, finish line yeah

Verse 2:

Girl it's true
I used to tighten up my laces
Sweat and pace around the room
We argue, then you'll be on the run
Always jumping the gun
We restart and try to make it new

Now you're full speed ahead
And yeah I shouldn't have did
A lot of things that I did, I regret it

You said you're moving along
And I done heard it before
So I'll be clearing my head till you get it

Chorus:

I won't be running after you
And I won't chase you down the street,
I won't be calling out your name this time
It's gotta be hard to believe
That I'm not running after you
I won't be losing any sleep
I won't tell you to slow your roll this time
'cause now I'm at the finish line

Bridge:

Standing here again, my adrenaline
It's cool but it's you catching the second wind
When you're tired I'll be here
Well let's hope that I'm still here
For you
For you, for you, for you, for you
I can't keep running

Chorus:

I won't be running after you
And I won't chase you down the street,
I won't be calling out your name this time
It's gotta be hard to believe
That I'm not running after you
I won't be losing any sleep
I won't tell you to slow your roll this time
'cause now I'm at the finish line
