

In The Air

Wiz Khalifa

Verse 1: Wiz Khalifa

You've been lost with them rookies
Young Khalifa on this pro shit
So sick of standin still I could get you in motion
Trips out in the sand
Rollin swishers by the ocean
Toastin, private seats on the cloud and we ghostin
Used to play the low
Now you can't help but get noticed
Startin to get approached and your
Girlfriends gettin nosey
Still you hold me down,
Hold me down ain't afraid to show it
I know she someone I can grow with

Chorus: K-Young

Girl I wanna know, girl I need to know
If you really with me, if you're not then you can go
Girl I wanna know,
Would you tell me a lie? No
If you ever leave my side, no
Would you play with my time? No
If you rider put em
In the air (x12)

Verse 2: Wiz Khalifa

Tell me what's your name
Here's my number you can call me
Can't deal with a wife
But you can be my little shorty
I can be your star
We can kick it out in orbit
Or get done with this,
Flip somewhere and record it

Says she got a man,
But her man she gettin bored with
Love me cause I grind,
She don't mind where I be tourin
Don't got lots of time, therefore
I can't be your boyfriend

I?m more than in the air, soarin
Chorus: K-Young
Girl I wanna know, girl I need to know
If you really with me, if you?re not then you can go
Girl I wanna know,
Would you tell me a lie? No
If you ever leave my side, no
Would you play with my time? No
If you rider put em
In the air (x12)
Bridge: K-Young
I won?t be excited to sit at home
Waitin to hear the phone ringin
No, oh, oh, I won?t
Even though I?m in love with you
Yes I?m in love with you
Girl I?m hopin that forever we?ll be tight now
Let me put in on the table for you right now
Chorus: K-Young
Girl I wanna know, girl I need to know
If you really with me, if you?re not then you can go
Girl I wanna know,
Would you tell me a lie? No
If you ever leave my side, no
Would you play with my time? No
If you rider put em
In the air (x12)
