

Deepest Bluest (shark's Fin)

Ll Cool J

Uh, my hat is like a shark's fin
Deepest, bluest, my hat is like a shark's fin
Deepest, bluest, my hat is like a shark's fin
Deepest, bluest, my hat is like a shark's fin
Deepest, bluest, my hat is like a shark's fin
Deepest, bluest, my hat is like a shark's fin
Deepest, bluest, my hat is like a shark's fin
Man-made terror, hungry jaws of death
Y'all don't cross my depths, I'll pause your breaths
I cause you to sink down forty thousand leagues
Bleeding to death with no arms and short sleeves
My world's deep blue, killers gotta eat too
Looking for human flesh to rip my teeth through
Other fish in the sea but barracudas ain't equal
To a half human predator created by a needle
Jet black eyes, baby, they stare while you sleep
When your Titanic sinks, I'm the one you gon' meet
Hearing terrified screams, they surround my team
All you see is trails of blood, even God won't intervene
Nightmares of darkness, my appetite is heartless
Even if we related, you eliminated regardless
In the deep blue underwater walls
Half man, half shark, my jaws don't fall
Deepest, bluest, my hat is like a shark's fin
Deepest, bluest, my hat is like a shark's fin
Deepest, bluest, my hat is like a shark's fin
Deepest, bluest, my hat is like a shark's fin
Deepest, bluest, my hat is like a shark's fin
Deepest, bluest, my hat is like a shark's fin
Deepest, bluest, my hat is like a shark's fin
Deepest, bluest, my hat is like a shark's fin
Our Father who art in Heaven hallowed be Thy name
Killers sworn to beast, swallowed them in flames
They switched my DNA, trip me into Cool J
I can't fight the feeling, I'm born to kill prey
To survive an attack there's only one way
Battle to the death, that's how sharks play
Weapons left behind, we dueling with the mind
You blind, crippled, or crazy, you're real easy to find

You'll never make it home, tear the flesh off your bone

I'm talking death out a moment's notice

Like some underwater locusts

Deepest, bluest, my hat is like a shark's fin

Uh, uh, take it deeper

Uh, uh, take it deeper

These waters are waist level, the hallway's flooded

His name's LL, you don't really want it

I'm closing in 'cause I'm supposed to win

Should of stayed on dry land stroke while you can

Abandoned pirate ships, eels and sod scum

Underwater storms, you're blood is so warm

Killer for centuries, the Gotti of the deep

Sand under my belly, ocean over my head

You become the living dead

Deepest, bluest, my hat is like a shark's fin

Deepest, bluest, my hat is like a shark's fin

Deepest, bluest, my hat is like a shark's fin

Deepest, bluest, my hat is like a shark's fin

Deepest, bluest, my hat is like a shark's fin

Deepest, bluest, my hat is like a shark's fin

Deepest, bluest, my hat is like a shark's fin

Deepest, bluest, my hat is like a shark's fin

Deepest, bluest, my hat is like a shark's fin
Yeah, DBS
