

# When I'm Gone

## The Click Five

Dear love better sit down  
Bad news get the word out  
Accidents come with confusions  
Im numb on the asfalt  
Dont cry whats in your fault  
I cant feel its just confusion  
Keep on keep on keep on!

When im gone  
And the lights are out dont be sad for long  
When im gone  
And the lights are out i'll be shinin on  
Im just gonna let my life bleed on this letter  
Let my song sing on forever  
I'll still love you when im gone

Tear drops paint the vases  
Dispair is contagious  
Twisting back clutching a red rose  
Hold on hold on hold on!  
When life goes on

And the lights are out  
Dont be sad for long  
When im gone  
And the lights are out  
I'll be shinin on  
Im just gonna let my life bleed on this letter  
Let my song sing on forever  
I'll still love you when im gone

And the lights are out  
Dont be sad for long  
And the lights are out i'll be shinin on  
Im just gonna let my life bleed on this letter  
Let my song sing on forever  
I'll still love you when im gone [repeat twice]
