Keep It Coming

Starkillers Feat Nadia Ali

[Incomprehensible]Summertime, feelin' free
Come on baby, let's fly away
To a place, just you and I
Doesn't matter, anywhere is fineI know we've had our problems
But let's put it all behind us now
Break away from the past
And start a love that's going to lastBaby, we can sail around the world
A pleasure just for two
There will never be another girl
I just gotta have you, babyKeep it coming
Give me everything you got, no frontin'
I like the way you make me feel, baby
You don't ever have to hold back, I like it like thatKeep it coming
Girl, I really wanna have some fun and
I like the way you move your body
So, give me all of your love tonight, it's all rightCome over here, baby girl
And let me rub your body down
I know you're tense, girl, I can tell
I'm your man, I know you wellBut just think this time tomorrow
We'll be long gone from here
All alone in a trance
Makin' love on foreign landBaby, we can sail around the world
A pleasure just for two
There will never be another girl
I just gotta have you, babyKeep it coming
Give me everything you got, no frontin'
I like the way you make me feel, baby
You don't ever have to hold back, I like it like thatKeep it coming
Girl, I really wanna have some fun and
I like the way you move your body
So, give me all of your love tonight, it's all rightKeep it coming it, baby
Yeah, uh, uh, uh, uh, uh, uh
Check it, uh, uh, uh, uh, uh(Just keep it coming)
Keep it coming
Give me everything you got, no frontin'
I like the way you make me feel, baby
You don't ever have to hold back, I like it like thatKeep it coming
Girl, I really wanna have some fun and
I like the way you move your body

So, give me all of your love tonight, it's all rightKeep it coming
Give me everything you got, no frontin'
I like the way you make me feel, baby
You don't ever have to hold back, I like it like thatKeep it coming
Girl, I really wanna have some fun and
I like the way you move your body
So, give me all of your love tonight, it's all rightKeep it, keep it coming, girl
The way you make me feel
(Here we go, here we go)
You don't ever have to hold back, no
(I like it like that)Keep it coming, girl
The way you move your body
(Have some fun)
It's all right
