Standin' On The Edge

Great White

Well I've been strutting down the boulevard of broken dreams
Everything I own is falling apart at the seams
People think I'm crazy 'cause I don't give a damn
I guess you'd call me a renaissance man
And all the pillars of society treat me like a rat in a drain
But on this sinking ship the rats are all the same
And I'm standing on the edge while the world's caving in
Looking like the devil with a demon's grin
I don't want to be around when we pay for our sins
'Cause hell's a little hot for me a little hot for me
Well I've been upside down and right side left
I've been hung out to dry but I'm still plenty wet
I've been shaking up the world since the day i was born
Looking tired and tattered and clothes are torn
I'm kind of hoping this will get better
A drowning man just don't get any wetter nobody's wetter than me
And I'm standing on the edge while the world's caving in
Looking like the devil with a demon's grin
I don't want to be around when we pay for our sins

'Cause hell's a little hot for me
And I'm standing on the edge while the world's caving in
Looking like the devil with a demon's grin
I don't want to be around when we pay for our sins
'Cause hell's a little hot for me
Standing on the edge
Take it back where I come from
I don't really care about the news of the world
Don't need no more reality TV
'Cause it all looks the same to me
And I'm standing on the edge while the world's caving in
Looking like the devil with a demon's grin
I don't want to be around when we pay for our sins
'Cause hell's a little hot for me
And I'm standing on the edge while the world's caving in
Looking like the devil with the shape i'm in
I don't want to be around when we pay for our sins
'Cause hell's a little hot for me too hot for me
And I'm standing on the edge while the world's caving in

Looking like the devil with a demon's grin
