

# Sex Love and Honey

[Raine Maida](#)

Fighter planes running 'round my head  
Running 'round my head, I gotta go, go, go  
The sex, love, honey that I taste, honey makes me wait  
Honey says she's late A love heart hanging by a thread  
Hanging by a thread, I gotta save it, save it  
Jack and Jill left the golden state  
There's nothing left to say, nothing left to say But I, I don't feel like I felt before, it's not happening now  
My mother is at my door, it's not happening  
Now, that your leaving I love you like never before  
Oh, this is not, this is not happening now, can't be happening now Love, hope heroes that can save  
Heroes that can save, you gotta know, know, know, know  
Laugh, hurt feelings misbehave  
Feeling like a wave, you gotta brave it, brave it Up down give me all the blame  
I'll take all the blame, I'm gonna take it, take it  
I'm begging but you won't let me explain  
I've got one foot in this grave, one foot in this grave But I, I don't feel like I felt before, it's not happening now  
My mother is at my door, it's not happening  
Now, that your leaving I love you like never before  
Oh, this is not, this is not happening now, can't be happening When you feel like your alone inside  
And you beg but she won't take you there  
And you can't find any wrong from right  
One solution is you, don't let yourself ever care, ever care Oh, I don't feel like I felt before, it's not happening  
now  
My mother is at my door, it's not happening now, oh  
This isn't happening now, oh This is when she runs to the mountains, she runs to the tide  
We got China Town that love like the Fourth of the July  
With the doctors on call, don't forget Mothers day  
This nurse is a wreck, we all start to fade away Oh, this isn't happening now, oh  
Can't be happening now, oh, it's not happening now, oh
