

I Dont Need You

Modern Nature

[Chorus]

I don't need you, I don't need you, I don't need you

I don't need you, I don't need you, I don't need you Since we've been apart, I don't need you.

I thought from my heart that, I wouldn't leave you.

But I have, yes it's true -- and I haven't found someone new.

And I pray that you, won't need me too.[Chorus]

I had many lonely nights, when I wanted to kiss you.

But now it's come to pass that, I don't even miss you.

Well it's sad. But it's true. That girl I don't love you.

So don't worry 'bout being true, cause, I don't need you.[Chorus] I wish you better love, wherever you go.

But there is one thing that I think, you should know.

That we're through, yes it's true, in all the things I do,

Girl I won't need you. Babe...I don't need you.[Chorus](c) 2013 Two Marksongs LLP
