Fly Into This Night

Gino Vannelli

First the high and then a low
I'm getting a romantic vertigo
In the rain then the drought
That's what loving you is all aboutFly, fly into this night
Oh, and rectify my dreams
I, I love you more than life
Though seldom I'm sereneFeel the cold in the heat
Questioning my blind fidelity
Love is sweet love is tart
Loving you is a crime when we're apartFly, fly into this night
Oh, and still my fantasies
I, I love you more than life
Through seldom I'm at peace
