

# Head In The Clouds

## Mocky

I'm tired of waiting for the breeze  
To come shake the leaves down off these trees  
And bring this summer to an end  
So everything can finally start over again I know we don't say what we mean  
And everything ain't what it seems So for now...I got my head in the clouds  
Cause I know they'll always be around  
Head in the clouds  
Cause I know they never gonna let me down  
Head in the clouds ooh ooh ooh  
Head in the clouds ooh ooh  
I'm pulling my head out of the sand  
In an attempt to comprehend  
Just how the birds stay in the sky  
Nothing to learn, you just need a good reason to fly I know we don't say what we mean And everything ain't  
what it seems So for now...I got my head in the clouds  
Cause I know they'll always be around  
Head in the clouds  
Cause I know they never gonna let me down  
Head in the clouds ooh ooh ooh  
Head in the clouds ooh ooh Those raindrops must be lying  
Cause nobody's gonna catch me crying  
Head in the clouds  
Cause I know they'll always be around  
Head in the clouds  
Cause I know they never gonna let me down  
Head in the clouds ooh ooh ooh  
Head in the clouds ooh ooh
