U Should Know

Babyface

On the first day I saw you
I knew I would fall in love with you
And ever since I fell for you
I never loved another, that's the truth
In my heart and in my arms
Is where you belong
I won't let you fall
Baby, you should know
You should know I think you're incredible
Baby, you're so beautiful, simply irresistible
You should know there's not a day or night
That I don't think of you
I'm in love with everything that you do
Just the very thought of you
Makes my head spin, no lie is true
Now I understand what God can do
Look at what he did in the making of you
In my arms and in my heart
Is where you belong
I won't let you fall
Baby, baby, you should know
You should know I think you're incredible
Baby, you're so beautiful, simply irresistible
You should know there's not a day or night
That I don't think of you
I'm in love with everything that you do
Please know it's all about you
I'll sacrifice for you, God knows I worship you
Baby, you should know I love your dirty drawers
Go out there for you without any reservation
I speak the truth to you, it just ain't conversation
You're the beginning and the ending of my day
All that's in between my everything
You should know I think you're incredible
Baby, you're so beautiful, simply irresistible
You should know there's not a day or night
That I don't think of you
I'm in love with everything that you do
You should know I think you're incredible

Baby, you're so beautiful, simply irresistible
You should know there's not a day or night
