Khopirron

Misanthrope

To the twilight of time, in his infernal pillar
The scarabaeus, spreads life by evilKhopirron emblem of resurrection
Etruscan print delivers your judgementDisunited to four points by the wind's force
Misguided to four corners of the wide continentThe corset carapace of alloying pyramids
Install the chameleon cosmonaut in the matrixLike a god of salvation, accompany back the stars
Receive them in the arch of lifeKhopirron emblem of resurrection
Etruscan print delivers your judgementPeaceful harbour of idealKhopirron emblem of resurrection
Etruscan print delivers your judgementBlue scarab symbol of immortality
Set me freeSo let this frame to the ancient knowledge
Black Karabos inebriate wisdomI need some energy, transplant me
And in seven seconds, a new nebula roseFrom a primary plasma where divinity settled
A savior is born celestial moment of graceI need some energy, transplant me
And in seven seconds, a new nebula roseTo the twilight of time, in his infernal pillar
The scarabaeus, spread life by evilKhopirron emblem of resurrection
Etruscan print delivers your judgementDisunited to four points by the wind's force
Misguided to four corners of the wide continentThe corset carapace of alloying pyramids
Install the chameleon cosmonaut in the matrixLike a god of salvation, Accompany back the stars
Receive them in the arch of lifeKhopirron emblem of resurrection
Etruscan print delivers your judgementPeaceful harbour of idealKhopirron emblem of resurrection
Etruscan print delivers your judgement
