

Just the Two

Tamika Dunning

There are no memories that can compare
To the ones I've made with you
You're the one for me
And please know that's true
All I am I know in my soul
I owe to you The still waters that give me calm
A safe port in a rough storm
The sweet air that I breathe
A strong spirit when I need it
I still look in your eyes
and want to make sweet love to you Remember the times that
Only exist because of you
All the dreams that came true
because I loved you
I'm the woman that I am because
I fell in love with you
All I have is because I loved you
The world is anew because
I fell for you
I'm going to hold on to you
And never let you go Chorus
The still waters that give me calm
A safe port in a rough storm
The sweet air that I breathe
A strong spirit when I need it
I still look in your eyes
and want to make sweet love to you Forget all the past
and cling to the future I see in your brown eyes
Love you forever and forever
And give all I have
Never look back
Pushing forward
You've always seen me through
I want to spend the rest of
My days on this earth with you
Walking hand in hand
Just the two Chorus
The still waters that give me calm
A safe port in a rough storm

The sweet air that I breathe
A strong spirit when I need it
I still look in your eyes
and want to make sweet love to you Don't let me go
Hold on to me please
You're the only one
Who stopped the blowing wind
And kept me from moving on
Our lives are the purpose
I've needed all along A strong shoulder to cry on
A comforting hand to hold on to
Your gentle words that always
Carried me through
That gentle nudge
Or reassuring pat
That made me know
You had my back I'll be there for you
Like you've been there for me
Always until the end
Holding on to your hand
We'll take this journey together
My best friend Chorus
The still waters that give me calm
A safe port in a rough storm
The sweet air that I breathe
A strong spirit when I need it
I still look in your eyes
and want to make sweet love to you
Just the two
