# Get To Know You

## IM5

You got that something custom-tailored for me
I want to try you on and wear you all day
You got that something, something. Serve it to me
I'll give you five stars, so give me tasteI need some more of you
Don't keep me waiting now
I got it bad for youAll I wanna do
Is get you all alone
Can I hold you close?
Tell me girl cause, all I want is you
You and no one else
Keep you to myself
No time to take it slowGirl let me get to know you
(Let me get to know you)
Girl let me get to know you
(Let me get to know you)You got that something I can watch it for days
One of a kind, you ain't no copy and paste (Ahh yeah)
You got that something, something that can't be tamed
The way you move got me some type of wayI need some more of you
Don't keep me waiting now
I got it bad for youAll I wanna do
Is get you all alone
Can I hold you close?
Tell me girl cause, all I want is you
You and no one else
Keep you to myself
No time to take it slowGirl let me get to know you
(Let me get to know you)
Girl let me get to know you
(Let me get to know you)Rap:Aye girl, let's have a conversation
Running through my mind
Do I have your heart racing?
Mommy, you blazing. Put out the flame
Hop in my ride. Let me drive you insane
Stop
Let me get you know you
Get up and over. Rev up the motor
Take you round town. Girl you know it's going down
Let me get all up on your curves. Run aboutNo one could ever compare
Hey!

You hit me hard line a snare
Hey!
Put your hands up in the air
Hey!All I wanna do
Is get you all alone
Can I hold you close?
Tell me girl cause, all I want is you
You and no one else
Keep you to myself
No time to take it slowGirl let me get to know you
(Let me get to know you)
Girl let me get to know you
(Let me get to know you)
