

4Am

Huntar

It could be so easy girl
But if you cheat on him, I know that you'll leave me girl
I don't understand who you're trying to be with, girl
But all these other guys really tryna be me, girl
Wish I had more time to spend
But I could never be your boyfriend
And, I know that you hate that
But, you always text back
Late night sex times, morning lover
I call you when I have no other
You can make me feel right, when I don't know what to feel like
I still think about us when I hear that song you like
Hot kiss, cold hugs, leave each other
Drunk texts, Snapchats, online love
Let me know when I could meet ya
So I could show girl I don't need her
When it's four AM in the morning
I've been thinking about my past again and
You should know, I don't want your love
Never have, never will
When it's four AM and I call you
You can tell that I've been drinking when I say
You should come, take it off, all off
Help me get over her
You should know, I don't want, your love
Never have, never will
How can I hold you so close
When I'm thinking of somebody else?
How can I treat you so right
When I know that you're only the help?
The reason you're here is to deal with my fear
I hate being alone
How can I do this to you
Yet you still always answer the phone?
When it's four AM in the morning
I've been thinking about my past again and
You should know, I don't want your love
Never have, never will
When it's four AM and I call you
You can tell that I've been drinking when I say
You should come, take it off, all off
Help me get over her

You should know, I don't want, your love
Never have, never will I'll be your favorite worst mistake
You'll be a night to fill the space When it's four AM in the morning
I've been thinking about my past again and
You should know, I don't want your love
Never have, never will
When it's four AM and I call you
You can tell that I've been drinking when I say
You should come, take it off, all off
Help me get over her
You should know, I don't want, your love
Never have, never will
You should come, take it off, all off
Help me get over her
You should know, I don't want, your love
Never have, never will
